

Technical Data Sheet

Golden Pearl Bloom

Golden Pearl Bloom is formulated to work with 'PURL DIP' or 1-80 sheep dip containing phenols. It completely fades away within 6 months.

● Directions for Use*

1. Fill dip tank with water.
2. Add the recommended amount of your phenol dip and stir well.
3. Shake the container of Bloom, mix it with some warm water in a bucket, then add the mix to the dip and stir well.

**this advice is given in good faith based on our current knowledge and does not dismiss the need to test the finished dip thoroughly. It is recommended to determine the number of dips required for the desired depth of shade first before proceeding on a mass scale.*

● Shelf Life

The shelf life of bloom is 12 months from receipt when stored in the original sealed containers. It is recommended to store the containers between 10°C and 30°C.

● Dilution Rates

1. A 250ml bottle is sufficient for 700 litres (or 150 gallons).
2. For a darker shade with the above concentration dip 5-6 times*
3. For a darker shade, only dipping 2 or 3 times, the concentration can be made 3-4 times stronger*

Caution: For more information, please refer to the Material Safety Data Sheet.
